Today is Sept. 16, 2017. There are a small amount of Stelarium watchers, who reveal the sign of Rev. ch. 12 message. The truth is the manchild is about to be born Sept. 23 on the feast of trumpets. NASA hasn't said anything. Can be watching for manifesting of something if rapture doesn't occur. I do notice a blood moon event for 2018, thought that would be for Israel and also overcomers ??? By the way I haven't run out of love for saints at all. God bless.
