pray for your enemies, they are bound with spirits of poverty. The poor souls cannot sleep well for they are obsessed with fear of getting caught while they cannot rest from spirits of covetousness. This is Christian thinking that we don't want any souls to be in the pit for eternity. The devil is tricky, he wants us to hate and be angry. then we are in trouble. Our victory is in Christ and he wants us to have abundant life. let every hack call remind us to pray for them and claim a new promise-- at least one.

Thank you Jesus for your power to save all elected souls to your kingdom. I forgive my enemies and bind all powers of darkness against me. I confess that my God supplies all my needs according to his riches in glory by Christ Jesus. Phil. 4:19. I give thanks for forgiveness for any wrong doing in my past which is covered over with the blood of Jesus. In Jesus name.
