You may not have heard about it. Israel has just shown the world their new weapons. Years ago we had heard of Israel's weapons that showed they were a super power. Now they show us a special super submarine with nuclear power. The other is a high tech. laser. it is able to reach so high it can cut a plane in half , or even a incoming missile.

Many years ago Russia was sneaking in tanks and stuff hidden in areas not easily seen, into Israel. Israel confiscated them and took them apart to make their own weapons. (not in the news)
