The first thing you will have to do is prayer. All you have been taught about God's word, must be discerned in a new light. You will have to decide, if you are ready to literally walk with Jesus. One must come out of this world's mind programming system (they know not God or his ways.) To walk with Jesus means he will be your friend and be faithful to you. As a superior God he will only require from you which is for your best interests.

I told you not to touch the fire of sin. You will receive the burn and be told I told you but you didn't listen. Our fathers chastened us for their benefit, but God does it for our benefit. Heb. 12:10. God gives us incentives to strengthen us and benefit us. He supplies every need. it is the father's good pleasure to give us the kingdom. do some homework and find what salvation means. cross == forgiveness salvation means???

to give up something for God means he will replace it with something better --guaranteed.
