To think one scripture would show us the answer. The world wide rebellion against God and his word. In 1Cor. 11:7-8 show us God and his plan. This rebellion is rising in religious and secular people. This scriptures reveals man and woman and their position. My Dad years ago was trying to make a point, though not liked, it was a good point today. He said if he calls a apple orange then it is orange the apple being red. His point was what he says is to be obeyed if he says it. Well communism is the same. If your a male and want to be a girl you are expected to be obeyed. If you dress wrong then you are right. Don't question it because I say so. (they say). Antinomianism is rebel against what is law or naturally right. Yet----- if you say it is wrong to do this or that, you are rejected. I just had a young man say to me after saying long ago I gave up rock music. He said what is wrong with rock music? He professes to be a Christian.

If I remove or put body parts on I still am what it says in my birth certificate. I rejoice that babies go to heaven after abortion. They will be waiting for me there.
