I covet Gods power by his hand in life situations. It is when we have no control that he predestinates things to show knowledge of his word is amplified by Gods actions. He humbles us so he can get all the glory.

To show this, what happened started with my weakness. I left for Walmart without a cell phone. Then my gas tank was almost empty. Thought I would go shop first. then just two blocks toward home from there is a gas station on my way. The truck wouldn't start and it was around 28 degrees. Later found out my oil was low.

Well went to customer care. They couldn't help even no spare gas in auto. I had no gas can. but then she called for police assistance.

Police would be coming and I could wait in a certain area (in the cold.) My mouth was so dry. after a long wait 2 police cars pull up. On the back above the fender is written large letters (in God we trust). That is on all Sylacauga police. One car brought me home, and she and I talked about Jesus all the way. She stopped in one lane with lights on and we still were talking about Jesus. We pulled up right in time as my wife was leaving. She would help me get gas. timing of God was perfect.

point to remember? 2 police cars with big words on back-- In God we trust. Also the officer was only on the force a few months and was from Chicago, and was a former bible school student. God sets up situations for the right people who have a heart for God. They need good bible teaching. So they can apply it to saving others.
