Hombre mentioned that allowing avatars to be shown with the message might add more personality to the forum, I agree, so if you would like us to see your mug (or tasteful artwork if you prefer complete anonymity) just go to your "User CP" select "Settings" and then go down to Avatars and upload your pic. I'll need to approve it before it shows up, but when approved it will be posted with each of your posts.

The max size should be 100x100 and under 10K.

I put my reading glasses on so I wouldn't be recognized... <grin>

Blessings,

William
