---

three communist leaders meet to discuss the research for immortality. Hollywood shows how it is possible. They all are guessing and use opinions but not facts. If they look to AI and get anything other than the bible, they will only expose Satan.

We will save them the trouble. it is in Revelations 9:6. I believe God has prophetically showed his people that the end time will reveal this search for a never ending life. Chap. 9 of Rev. appears as a word of judgment for their desire.

Those who are believers are guaranteed eternal life through Jesus. God didn't put DNA in man to be played with.
