12-14-23 early AM

Dream

In the dream a was visiting a friend or relative in Naples, Fl. We were outdoors when we heard planes flying over. I asked if they thought the planes were landing at the airport, we thought they were too big to land at Naples. We looked out over the Gulf of Mexico as other planes were coming. Then there was a large explosion over the Gulf and flames came down to the water, stretching back to the clouds as we stood there in awe, then the flames came in off the water going north and consuming everything in its path.

Meaning:

There is a firestorm coming to this land, like has never been seen before. You must warn My people of the impending dangers.

Turn their hearts to Me (The Lord) and I will protect and preserve them.

Dream

I was at a high end Motel (like in New York City)

I was given a master key, to help serve those in the building better.

Meaning:

I have given My people, The Keys to the Kingdom ! Take those Keys, and step up and serve Me (The Lord) in a way higher than you have ever served Me before.
