Just got this from Don and Doris:

Greetings, one and all.....I think the following document is self-explanatory. Hope you will respond, and will forward it to many on your contact list for whom we have no e-mail addresses!

TO ALL ZION LAKE CAMPERS, VOLUNTARY STAFF MEMBERS, SEMINAR ATTENDEES,
TEACHERS, MEMBERS OF ASSEMBLY AT ZION LAKE, FAMILY AND FRIENDS

One of our greatest disappointments about our ministry at Zion Lake Christian Center was the fact that we failed to keep a Journal of all of the events, happenings and experiences -- good and bad -- that took place at the Center. We have thought for some time of attempting to collect stories, incidents, funny experiences (and some not so funny) that happened during our 28 years as Camp Directors/Managers, as Pastor and all the other "hats" that we wore from time to time, and all those experiences of campers, staff members, seminar attendees, seminar teachers, church members, family, visitors and friends -- and then to write and publish a book for any who might be interested.

To that end, we are sending this e-mail to everyone in the various categories listed above for which we have e-mail addresses, and are requesting each of you to please forward our e-mail to everyone in your list of contacts not listed above, who you know to have attended Zion Lake events, or worked for us at Zion Lake. We would like to receive from everyone who receives this e-mail any and all brief stories, funny or not-so-funny incidents, experiences, documentaries, copies of photographs, commentaries, memories -- and even things you didn't want us to know about -- and we know there were several -- that would add to the interest of such a publication. You can send this information by return e-mails, or by snail mail, or whatever way you wish. We'd like to have this information sometime before July, 2011. As you can imagine, it will be a real task to put it all together, but we'd like to have something done by July, 2012. Our address is as follows:
