As darkness increases so does God's light. Years of experiences, God is the teacher.

head battles--- One battle is the waiting game. Satan will plant in your mind thoughts that are designed to produce doubt. Remember how you were told anything that comes from evil is darkness. There you have it. In the garden the darkness asked "hath God said". Jesus said he is the light of the world. Satan challenges with, I am the god of this world. That is darkness. Light destroys darkness and it doesn't take much. The light is --God has said. Rom. 10:17 faith light comes by hearing light, that is the word of God which is the light.

God's promises are light. The more you say the words of promises the greater the light. Also righteousness is light. That is the kingdom of God --light. joy the fruit of the Holy Spirit is light. peace is light. The whole bible is the light. Lights on, darkness flees. God's voice is light. Sooooo-- head battles are darkness till the head is full of light--the word.
