Let me know if anyone can see this prediction given in 1964, I'll try to redo it if it does not work.
Sorry I tried to copy/paste to my browser but did not seem to work, will try to check this out .

Thanks,
Gary

Sorry about that someone sent it to my cell phone in the messenger, from their facebook page. I need to find out the original link, to be able to post. I don't know how to send it through messenger if its even possible. I'll keep working on it.

Gary

Gary,
I watched the Regan clip in the download from the email... the address was highlighted there,

weird it's not doing so here.

Okay I listened to the full Youtube video that's (on here now), and did not realize the internet video I was sent has been cropped. Certain sections have been pulled together and while others were taken out, it sounded like a different recording.

It was a good speech though we now have 10 times the national debt since that was recorded. We're now at 23 trillion, while there is over 330 million people in this country.
