---

I was a bass player, and a Deacon at a Spirit filled church. Never was a disciple but did go to a bible college students home for some bible studies in the past. Well in the church where I was eventually married, a brother who was actually a visitor for awhile was inviting whoever would come. My fiancée and I were all that came.

He introduced me to faith Assembly, gave me many Freeman books. I had a active Christian life already but learned important things from him. To name a few. Truth without error while believing the bible cover to cover. To walk by faith with God for (everything). A complete separation from the world and what it loves. Striving for ethical and righteous behavior daily. praise and worship of God daily in Spirit and in truth. Learning the meat of God's word and getting off the milk. maturity and perfection unto fullness of the Spirit. cleansed of denominational doctrine and teaching. Accepting healing ,deliverance, prosperity from God only. These are just some things he started with and have stayed with me about 45 years.

Hope that this all gives new saints some direction. It is important to be in the body of Christ that are teaching these things---If you are not able pray God will get you there. In God's providential way he will get you there.

My experience. While praying in tongues I had a vision in living color( most of mine are black and white.) I saw a spaceship flying over head at that time didn't understand it. It was a 200 mile distance from where we were living. We were going to where a Pastor Mike was coming. What God was showing was we would move to the main church up by the Cape Canaveral space center. We had marvelous confirmations to long to tell now. God bless.
