Very interesting column here by Bari Weiss on Jews in America. She was an opinion page writer at the New York Times until a well-publicized resignation because the NY Times has been taken over by

an orthodoxy already known to an enlightened few whose job is to inform everyone else.

William has written about this here recently. If you don't understand its because you're not "woke" That may sound a little silly but its actually very very serious. The woke folk and the Critical Race Theory (CRT) people have taken over almost all the institutions in our society and are in the process of taking over the corporations as well.

Her column is dealing mainly with Jews and is something a lot of us have seen coming for a long time. Its a column well worth reading as it is a parallel to end times. Which obviously isn't her purpose.

So let me make my purpose perfectly clear: I am here to ring the alarm. I'm here to say: Do not be shocked anymore. Stop saying, can you believe. It's time to accept reality, if we want to have any hope of fixing it.

Isn't it interesting to see, at this late date, with all of the chaos, antisemitism always rears its ugly head. For Satan's kingdom it's a fixation. How many times have you been reading along in an article and BAM! there it is, antisemitism pokes right out of the heart of it all!

Blessings,
William
