---

A long time ago saw what Dr. Freeman said in his book angels of light. It was brought back to mind and found this phenomena is still a healing movement. First the new one. I am quoting Martin Thomas Feb. 24,2022. " I don't know what the entity is. He performs many healings without medical or Christian powers. He also says" spiritual philosophy and medium ship, in particular develop my psychic abilities."

This is obviously Satanic powers--end time signs that are arising. I notice in his video that he laughs uncontrollably time to time. He started with the Harry Edwards movement. These are schools so watch out true Christians who pray for healing in Jesus name have some competition coming.

sickness which is a curse seen in Deut. 28: is easily removed by the curse of darkness to try and fool into believing one can be healed without Jesus.

Tony Agpaoa from the Philippines started the movement of real psychic surgeons. The videos don't bother me as I was once a medical heretic. It is up to you if you watch what they do to heal. Amazing when he came to U.S.A. and was arrested. It is like the devil fighting against himself. Jesus is the only safe way to be healed--no need of deliverance after your healing. My experiences were all by his wonderful power and hand in the name of Jesus.
