I know that in their Holy Spirit prayers they are praying. God is honoring your faith. Sometimes we feel prayer going up but can't see the manifestation. I want you to know that I have received some of those prayers. They are visitations that are absolute revival in my heart. Not all prayers are for repentance, but for the raising up of faithful 5-fold and Assemblies for feeding the riches of God's word.

We are a minority, but we have the goods. including great joy of the Holy Spirit. We are not the losers that the devil would have us believe--we are overcomers and God's champions. I use the word we more than the word I. That is how a habit of thinking more about others than just ourselves is developed. In one mind and one accord we already won the battle-Amen.
