Daniel and the other three boys were in exile. The temple was destroyed (like the closing of a Assembly). We notice a tremendous thing. In their trial they still function. They live by the word of God as though they were still in Jerusalem. It is obvious that in their testing, their lives were still righteous.

Daniel still prays in faith towards the temple where it used to be. God can use his people wherever they are at. The Lord doesn't change only situations. The seed of the word planted in us is alive and well with our faith.

We are tested to see if we are alone yet feeding on the word by the Holy Spirit. Sometimes feeling lonely is God saying listen to my voice by fellowship with me.

stability in God is not based on anything but the word. We continue to live Jesus words and actually prepare to be used to do great things through our God and his glory.

In my experience in exile, Jesus makes my life wonderful on a daily basis. The revival I am in is daily, monthly, yearly. We must all continue to see the devil as a liar. God is true and faithful.
