This past week Brother Ron (JWBTI) and myself had the blessed experience of meeting Brother Hodge and his wife Arlene and their friend Joy. They were in northern Indiana for the wedding of their grandson. It was just a few short hours but was one of the most uplifting times of my life that I will remember for all eternity.Brother Hodge has posted many faith filled posts on this forum and to meet him in person and see that he walks the talk is just tremendous. Here is a man who is walking out a very debilitating trial and is trusting Jesus totally for his healing.We went to minister to him if we could and we ended up being the ones who were blessed. He still is walking out some issues but he trust the Lord Jesus Christ with all his being and in this day and age I don't find many people who truly trust the Lord. That's not to say there aren't any but I find that even in scripture it asks will Jesus find any faith when he returns. I can say without a doubt that if he returned today he would find it in Hodge. What a privilege to have gotten to meet him and to see the faithfulness
Of Jesus.

Our belief is that he will be totally manifested and be able to give us some more faith filled posts.We join you brother Hodge in uplifting our risen saviour.
