I posted a draft of a message 14-15 years ago on this site called,
God wants you well. Over the years I have shared this message in many different ways and forms. This past weekend I was privileged to share this word at our local assembly, if you can see past the messenger I believe this message will be an encouragement to you.
Blessings in Jesus name

Yes! A good word--preached on 'skid row'!

When I was younger I took the healing message for granted but the older I get the more I appreciate the depth of what Jesus did for us--He wants us WELL!

Blessings,
William

I enjoyed that. I finally got a chance to watch it. Passed it on as well.
