Traveling one and a half miles one way to minister in nursing home. Almost there the truck motor blows up but only internally. The distance was not close to the home so didn't make it. Praise God I was close to a automotive store. Thinking this thing through was not good. Went into the store and walked up and down the rows praying to myself in tongues.

Then the employee said what is up. I told him. He said I know a man who is mechanically skilled. Also a friend of the employee. I can have him come and look at it. he came and looked and saw it was bad. He was real friendly. He offered to pull my truck on a trailer he had and bring it home. He said he would do it for 100 dollars. That far would have cost at least 250. He came back with the trailer and his wife.

Long story short, he is kin to Dwight Pentecost (his last name Pentecost) we talked about Jesus one hour and a half. including stopped to let me get some supper. We both had joy and happiness the way home. Glory to God for tongues. My truck was not even possible to fix. God did provide another truck also.
