For those of you who haven't heard there was a major successful preemptive strike by Israel against Hizbula in the north last night. Israel had very good precise intelligence that Hizbula was going to launch a major attack on Israel at 5:00 am this morning (Israel time). On some major targets.

There has been a burden to pray for Israel the last few weeks. From what I can see it was extensive across the church. My point here is that this successful strike was the result of the prayers of Gods people. Things are happening in Israel and the region but it simply isn't time for the Gog war and related serious issues to take place. God is still in control.
