back during the Obama administration, Hope you didn't vote for him, there were gates to Baal constructed and put in different places. One was in N.Y. This is a part of the NWO that is striving to take over the world. They want to be rid of true Christians and Jews. Threats are arising to take away bibles but not just yet. God is getting ready for a revival and his soldiers (hosts) are getting ready. They know their bibles by memory and can think on many wonders in the scriptures to encourage everyone.

They are very versed in promises of God and faith for receiving them. Did you know that promises of God are connected to every doctrine?
