OK I think I got this sorted. I had to use a pick as my thumb is too sore. When you hear this you'll understand why I never quit my day job.

Incidentally for those pounding their desks and sitting with bated breath calling for more. Here is some info on the song writer. His name is Rick Martin. He led the music at our assembly here in Haysville south Ontario. I led Rick to the Lord when I was 24 and he was 17. I think he was fairly well known at FA.

He ended up in Saskatchewan after our assembly broke up and became a pastor there. He is very well known there for his singing. He put out an album a few years ago and won the Sask. Country music album of the year award. In addition to his church he preaches and sings all over Sask. He is very well known there.
