As a watchman my purpose is to show how a hidden mistake by Benny Hinn reveals he has a false power. He said in his video that he is no longer going to use gimmicks like give a 1,000 \$ a sowing that will bring the same. He has apologized for many errors through his ministry at different times. One was in Dec. 1991 when he said the Jesus died a sinner heresy. He apologized. He taught God is 9 and not three. Trinity that is. He also revealed he got his power from Cullman's grave which is a familiar spirit.

In his video he also says that God hates what he does in false prosperity but he focus on others as well saying that.

The thing is that he never quit laying hands on people and they still fall under the power. No one seems to be saying anything about it. The bigger point is not just the man, but what Hin-du. The Kundalini spirit is being poured out on many instead of the Holy Spirit.

It has been said that yogi is a serpent who climbs up the spine to give knowledge. Sounds like more rebellion from the garden The serpent in the tree in the garden to give knowledge of good and evil--to me. The wisdom of the Holy Spirit is far above rubies.
