"But they that wait upon The LORD shall renew their strength; they shall mount up with wings as eagles; they shall run, and not be weary; and they shall walk, and not faint."Is.40:31

If you enjoy nature you can click on the link below or Google "Decorah Eagles" (located in Decorah, IA) and watch live ustream tv feeds of a pair of eagles that have been nesting in the same area for 7 years.(in a large cottonwood tree by a salmon hatchery in rural northern Iowa) I've watched them for several years(not nonstop lol), they always fledge out three eaglets. Right now they look like they're sitting on a mound of snow but there are 3 eggs beneath them. The eggs will hatch in about 35 days. You can read beneath the live broadcast for info about them, I really enjoy watching them, especially when the babies hatch and mom and dad start feeding them, they grow so fast.
