We've had 8 yrs of criticism to Obama now I guess it will be 8 (4?) yrs of criticism to Trump.

If Vladimir Putin is happy with Trump after 4 years...We've had some strange presidential elections over the last couple decades. Remember the 'hanging chads' from 2000? Now we got a president elected by the Russians...According to the party that lost the election. I used to think a 'hack' was a taxi driver; now it has a totally different meaning...as do many words.
