two men were born---June 14, 1946 Donald Trump. He was born right when there was a blood moon in the sky. That would be lunar.

Oct. 21,1949 Netanyahu was born. In the sky was a partial solar eclipse.

Frederick Christ trump died in N.Y. and that was at Long Island (Jewish) medical center.  
Elizabeth Christ trump died on 6-6-66. Christ a common name in Bavaria.

As you meditate and research these ideas, what will you find?

Would like to add, I was also born in Queens N.Y. like Trump and for some reason God gave me full understanding of the blood moons meaning over a few years researching. Just like the pass over of Exodus, Jesus was crucified on Pass over. God is a God of great timing.
