This happened with my wife and me when invited to a church years ago. There was music and a calm atmosphere. This lady came out to the front by a door. She was excited at the music. She raised her hands and was doing a jumping kind of dance. she had that common appearance when one is supposed to be getting a anointing. like a touch from God thing. She fell under a power, and should fall. she fell backwards and banged her head on a pew. she was out. they called the ambulance and they brought a rolling bed and carried her out. God doesn't do this kind of thing. In another case he doesn't cause a man fall on a woman he doesn't know and both bodies wiggle. They didn't know what they were doing.
