---

After leaving to go to the store, where is my wallet? Had to put groceries back. One or two days later we found our guests wallet on the floor by the table. We returned it that evening. Then came this Holy Spirit understanding. It was something he wanted to share with his people.

The importance of a wallet. It is so important to us we have to have it. It is a mandatory item we live with. Some things we have are not as important. But the wallet, it is a must. We go nowhere without it.

What about the bible. or prayer, or things of the Christian life. Are they less important than our wallet? Can we live without God things? Thinking and talking, and actions of righteousness. Are they mandatory or not as important as the wallet. God promises all we need. Even a new wallet. it is the father's good pleasure to give us the kingdom. Can you imagine God saying--oh I forgot to give them the kingdom? That will never happen. Oh I forgot to praise God today. For me --not going to happen.
