Some years ago was out in my boat fishing. The L shaped lake at the half way point there is a very high waterfall. My Evinrude motor was running on a battery for the ignition. In the area turning motor off to fish. I found my boat drifting toward the falls so would start it up to move on. The battery was dead. While drifting towards the waterfall and very close, pray and say Jesus.

All of a sudden a wind came and my boat started heading away from the falls. I hardly had to use the oars as moving in the right direction was easy. Even had a wonderful kind of peace in my heart. Did go back out there at a later date.

One time while out there while fishing a butterfly landed on my shirt pocket.
