The Musicman(Gene Cornell,) who has been on this site, has some Thumbdrives for sale for a very limited time. There is instrumental music, specials from the seminars, worship music, children's music, some from Maranatha and more. The Thumbdrives are $25, and I might add, well worth it. For more information you can contact Gene at: rccci@netzero.net
Gene researched and obtained all necessary copyright permissions. I can't explain all involved in this, but I am sure he would be glad to. Gene said on the thumbdrive is over 2,000 songs.

Hi Sage,

I was telling a friend of ours from the body about this thumb drive and they were interested in buying one. I also wrote an email to buy one but never got a response. Do you know if they are all out of these devices?

Just wondering since I did not get a reply stating they were out.

Gary

P.S. I heard you guys up there like to hunt mushrooms. We like to hunt them as well down here but they do not grow as good like they use to when we were younger. I sure enjoy hunting them though.

Morning Gary,
I will give Gene a call today and see if I can get ahold of him.

My mushroom hunting friend and I were just talking the other day to keep our eyes open for the Morel Mushrooms that should be coming up any time now. It is raining right now, so that should help with the mushroom crop. It is so much fun when you see one poking it's little head out of the soil. The last few years I wasn't able to go camping and Mushroom hunting, but this year I have a camping trip planned to go up north to the Gaylord, MI area to this one spot where we always found some. We bring steak and a grill and cook our mushrooms shortly after we find them. Sure should be a lot of fun!

Hi Gary,
I just talked to Gene and he said he has some left. He said to email him again at the rccci@netzero.net email address and put in the subject line something about purchasing a music thumbdrive. If your friend would rather call him I can get you his phone number and Private Message it to you. My thumbdrive sure has been a blessing. Have a good rest of the day and happy mushroom hunting!

Hi Sage,

I will write him about this, thanks for taking the time to find out about this thumbdrive. Let me contact our friends and see what they want to do.

About Mushrooms. I never heard of anyone eating them (morels) on steak. We generally batter them in flour and fry them in olive oil for sandwiches, or mix them in scramble eggs. The last few years they have been sparse down here. People go to Michigan, Wisconsin, and Missouri to hunt them and then they sell them around here for 40.00 a pound which I think is outrageous.

I do enjoy hunting them.

Thanks again for getting this information.

Gary
